TECHNICAL SKILLS

- Embedded C Programming
- Embedded Protocols
- PCB Designing

AREAS OF INTEREST

- Embedded Systems
- Hardware Prototyping
- 3D Printing

SOFTWARES KNOWN

- STMCubeIDE
- KiCad
- Fusion 360
- Arduino IDE

CERTIFICATIONS

- C Programming
- Introduction to IoT
- Psychology of stress , health and well being

HOBBIES

- Chess
- Reading Books
- Hiking / Trekking

LANGUAGES KNOWN

- Tamil (R, W, S)
- English (R, W, S)
- Sanskrit(R)
- Kannada (S)

EXPERTISE

- Public Speaking
- Team work
- Quick Learner

CAREER OBJECTIVE

A speculative engineer looking for an entry-level position as an Embedded Systems Developer with a keen interest in Programming and Hardware design preferably in avionics. I seek a dynamic and progressive company that helps to develop my technical skills and knowledge.

INDUSTRIAL EXPERIENCE

• June 2023 - September 2023 (90 Days)

Aeronautical Development Establishment (ADE), DRDO, Bangalore

Role: Embedded Systems Intern, Mission Control Avionics (MC-2)

- Developed STM32F407 based embedded firmware for Digital filters - signal processing, hardware testing, and troubleshooting.

• February 2023 - May 2023 (80 Days)

Tessolve Semiconductor Pvt. Ltd, Bangalore, India

Role: Embedded Systems Intern

- Developed motor firing control, sensor data acquisition, and recovery systems avionics for sounding rockets with STM32F446RE.

• July 2022 - August 2022 (21 Days)

Tessolve Semiconductor Pvt. Ltd, Bangalore, India

Role: Embedded Systems Intern

- Developed, integrated, and tested hardware and software using Arduino IDE and the Energia IDE

• May 2022 - May 2022 (18 Days)

PRICOL Limited, Coimbatore, India

Role: Manufacturing Engineer Intern

- Developed, integrated, and tested hardware for the electronic clusters and BS6 BLDC fuel pump module.

ACADAMIC CREDENTIAL

• 2020-2024

Degree: B.E (ECE)

Bannari Amman Institute of Technology, Erode, India

CGPA: 8.74 / 10.00 CGPA

• 2019-2020

HSC (12th Grade)

GKD Matriculation Hr. Secondary School, India

Score: 81.33 %

• 2017-2018

SSLC (10th Grade)

GKD Matriculation Hr. Secondary School, India

Score: 93 %

PROJECTS COMPLETED

Data Acquisition and Recovery System for Sounding Rockets (Feb - May 2023)

- Central Research Facility, BITSathy | Tessolve Semiconductors.
- Developing embedded firmware and hardware for sounding rockets with multiple systems - data acquisition telemetry, motor firing, and parachute recovery.

Autonomous Package Delivery Drone (2 Months)

- Electrical Team Lead, Micro Prototyping Lab, BITSathy.
- A drone that delivers packages to a specific location autonomously by scanning the ArUco marker using a raspberry pi microprocessor.

Range Extended Electric Vehicle (1 Month)

- Electrical Team Member, Manufacturing and Fabrication lab, BITSathy.
- Developed a Power Converter Unit for a range-extended hybrid electric automobile.

NOTABLE ACHIEVEMENTS

NOVEMBER 2023

ARM The Inventors Challenge 2023 - Project competition

- Secured first prize with the cash price of ₹50,000 in the competition conducted under the title "Design and Development of Data Acquisition and Recovery System for Sounding Rockets" jointly organized by AICTE, ARM India, and STMicroelectronics hosted by Noida Institute of Engineering and Technology.

JUNE 2023

Mistral Hackfest-23 - Project competition

- Secured 2nd Runner Up with the cash price of ₹50,000 in the competition conducted under the title "Natural/Industrial Disaster Management System" in Hackfest-23 organized by Mistral Solutions and Axiscades hosted by Bengaluru Institute of Technology.

APRIL 2023

kurukshetra '23 (Technovation) - Project competition

- Secured second place with the cash price of ₹15,000 in the competition conducted under the title "Data Acquisition and Recovery System for Sounding Rockets" by the College of Engineering, Guindy.

APRIL 2023

Impellz"23 - Project Competition

- Secured second place in the project competition under the title "Data Acquisition and Recovery System for Sounding Rockets" conducted by BITSathy.

MARCH 2023

Celestra 2k23 - Project Competition

- Secured First place in the Project Competition under the title "Autonomous Boat for cleaning floating waste in waterbodies conducted" by Coimbatore Institute of Technology with a cash prize of ₹2500.

DECLARATION

"I am a dynamic and driven individual with a passion for growth and a proven track record of success in achieving goals and exceeding expectations"

YUKESH CHANDRAN M
